

# THE BUILDING LIMES FORUM

TO ENCOURAGE EXPERTISE AND UNDERSTANDING IN THE USE OF LIME IN BUILDING

## Building Limes Forum Annual Conference & Lime Fair, September 2009

Venue: Weald & Downland Open Air Museum, nr. Chichester, Sussex.

This year the theme of the Building Limes Forum annual gathering and conference is *Lime in Practice*. The conference runs from 25-27 September.

**The Lime Fair** will take place in the Gridshell at the Weald and Downland Museum on **Saturday 26 September**, alongside the conference activities in the Gridshell for that day, and will comprise of approximately 20 stands and demonstration areas. Preference will be given to exhibitors wishing to demonstrate and encourage the development of lime related craft skills.

Exhibitors are welcome to book additional days in the Gridshell on the Friday and Sunday, either side of the BLF day, if they wish, as the Museum is open to members of the public and large numbers of visitors are expected.

Please advise us if you would like to do this when booking.

The Open Air Museum holds a significant collection of buildings dating from the 13<sup>th</sup> to the 19<sup>th</sup> century. The Museum will publicise the Lime Fair in its programme of events.

Other conference activities on the Friday and Sunday will be at the adjacent West Dean College. Residential accommodation is also available at West Dean.

Exhibitors' promotional material will be confined to the stands in the Gridshell. If you want promotional material and/or articles included in the delegates' packs with the events programme, please contact us about **Sponsorship** which will be most welcome.

There is a small lecture room (seating up to approximately 30) in the Gridshell which may be booked by exhibitors at half hourly intervals for separate additional talks.

Booking details are overleaf:
